

FIRST BREATH

BECOME A FIRST BREATH PROVIDER!

First Breath Provider Training Description

This 30-minute, [online training](#) prepares health professionals to become official First Breath Providers. Completion of the training provides the information and tools needed to use the Ask-Advise-Refer model.

Training Intention

This training is intended for healthcare and social service providers who provide services to pregnant, postpartum, and caregiving individuals. Completion of this training confirms your standing as a First Breath Provider, and the ability to refer individuals you serve.

Important: If multiple providers at your agency are providing First Breath, each individual provider must complete this training.
