

# BECOME A GRAPEVINE PARTNER!

## What is GrapeVine?

GrapeVine is a community-based chronic disease prevention program operated by the Wisconsin Women's Health Foundation. It is dedicated to helping Wisconsin residents achieve their healthiest potential, at any age. We partner with local health professionals (GrapeVine Partners) and connect directly with community members to share relevant, reliable, and accessible health information, support, and resources. GrapeVine Partners serve as volunteers of the Wisconsin Women's Health Foundation, though many incorporate education sessions into their job duties with the support of their employer.

## Who should take the GrapeVine Partner training?

This training is intended for health professionals who want to become a GrapeVine Partner and provide chronic disease prevention, management, and health promotion education through GrapeVine sessions in their Wisconsin communities. To become a GrapeVine Partner, individuals need to: 1) Hold a degree in nursing or certification as a health education specialist, and 2) Complete the New Partner Training. Completion of the training provides the information and tools needed to facilitate GrapeVine health education sessions on a variety of health topics, and confirms your standing as a GrapeVine Partner.

## Four Easy Steps

### 1 | ONLINE TRAINING

[Click the online training button and complete these three tasks:](#)

- Watch Training Video
- Complete Post-Training Survey
- Provide Contact Information and Sign MOU
